

SIGN UP FOR BROADBAND

Progress with BT

About 300 telephone numbers have been registered with BT broadband (although their website currently shows only 257).

Despite numerous attempts to get BT to give Balcombe a trigger level, we still do not know if we will get one or when that may be.

BT have assured us that every part of the UK will eventually get broadband; however, they will not say when or which kind.

An alternative to BT

Several companies are introducing an alternative to BT broadband across the UK (they are Invisible Networks and LTT).

Invisible Networks

Both companies offer wireless broadband

What is wireless broadband?

Who needs BROADBAND?

Anyone with a computer will benefit from broadband.

Businesses will save time and money. So will people who work from home.

Balcombe School and schoolchildren will have cheap access to the wonderful education resources on the World Wide Web.

People can contact each other using fast electronic mail (email), voice and video anywhere in the world for free.

Almost any piece of information you could ever want can be found on the internet, as well as music, games, photos, videos, books, clubs, organisations, shops, etc etc.

How can you help?

All you need is a Balcombe telephone number registered in your name.

Simply fill in your name, postcode and telephone number on the form at the village shop, post office, Victory Hall social club or hairdressers. Or write your details on the slip below and return it to the address shown.

You do not need to own a computer or even be interested in them. THERE IS NO OBLIGATION OR COST. No one expects you to get a computer.

✂.....

Register all of your telephone numbers. Return this slip to: 4 Stumblemead, Balcombe (01444 811413)

Title	First Name	Last Name	Telephone No.	Postcode

IF YOU HAVE ALREADY REGISTERED, FIND SOMEONE ELSE
